submitQueryUpdate

```
graph LR; A[server.ConsoleFrame.create Playlist] --> D[submitQueryUpdate]; B[server.ConsoleFrame.inserisci Emozione] --> D; C[server.ConsoleFrame.registrazione] --> D;
```

The diagram illustrates a flow where three distinct server-side actions—creating a playlist, inserting an emotion, and a registration process—all culminate in a single database update operation. Each action is represented in a white box with a black border, while the final update operation is in a grey box. Blue arrows indicate the direction of the flow from left to right.
